

To use A041 , simply Raise and open support arms, Fold the spa cover in half and slide onto support arms, and slide into the arms. Push the spa cover downward into a stored position. The gas strut makes removal virtually effortless for one person! easy to install and use.

The Cover Caddy from Cover Valet in the USA gives you a hand with your spa cover with just three simple steps:

- 1) Raise and open support arms.
- 2) Fold the spa cover in half and slide onto support arms.
- 3) Push the spa cover downward into a stored position.

Gas spring assistance allows the cover to be easily pushed down and replaced. The Cover Caddy? comes fully assembled in the box for ease of installation.

The Cover Caddy has a one year warranty and the pistons are replaceable should that ever be required.
